Summary

Information Technology student with strong foundations in Data Structures, full-stack development, and artificial intelligence. Experienced in developing scalable web and mobile applications using Python, Flask, Flutter, Firebase, and REST APIs, with a focus on building secure and efficient software systems.

Education

Vishwakarma Institute of Technology, Pune
B.Tech in Information Technology (Direct Second Year)
AISSMS Polytechnic, Pune
Diploma in Information Technology

2025 – 2028 (Expected)
CGPA: 9.00 / 10.0
2022 – 2025
Percentage: 92.06%

Experience

Sumago Infotech Pvt. Ltd.

June 2024 – July 2024

Trainee Software Developer Intern

Pune, India

- Developed full-stack web applications using Python, Django, and Flask.
- Gained hands-on experience in backend logic, database integration, and UI development during a 6-week industrial training program.

Projects

Attendance System using Geolocation and Browser Fingerprinting | *Python, Flask, MySQL, JavaScript*

- Built a secure web-based attendance system using geolocation and browser fingerprinting to prevent proxy attendance.
- Implemented automated authentication and real-time attendance logging for accurate tracking and transparency.

TrustPay – AI-Powered Fintech Payment App | *Flutter, Firebase*

- Built fintech app with Flutter frontend and Flask backend for secure UPI-style transactions.
- Implemented fraud detection: device binding, SIM change detection, geo-velocity checks.
- Implemented secure authentication and real-time transaction monitoring using REST APIs and Firebase backend.
- Designed Trusted Circle verification with Firebase security alerts.

CivicSphere – AI-Powered Civic Issue Intelligence Platform | *Flask, Firebase, Google Maps API, Python*

- Built a geo-fenced civic reporting platform for citizens to report municipal issues within Pune city.
- Implemented automatic constituency detection, smart complaint routing, and escalation workflows.
- Designed a public transparency dashboard to track complaint status and resolution updates.

Technical Skills

Languages: C, C++, Java, Python, JavaScript

Frameworks: Django, Flask, Flutter

Backend: REST APIs, JWT Authentication

Web Development: HTML, CSS, JavaScript, React

Databases: MySQL, SQL, Firebase, MongoDB

Core CS: DSA, OOP, DBMS, Operating Systems, Computer

Networks Tools: Git, GitHub, Google Colab, VS Code, Antigravity

Achievements

- **Best Solution Award – Innovate You | National Level Techathon 3.0 (2026):** Secured Top 15 out of 455+ teams nationwide, awarded ₹10,000 cash prize and trophy for innovative solution development.
- **Uplifter Award – Sumago Infotech Pvt. Ltd:** Recognized for outstanding performance during 6-week industrial training in Full Stack Development using Python.
- **1st Prize – Tech Arena (Keystone School of Engineering):** Secured 1st place for innovative project work and problem-solving, awarded with a cash prize.
